FOR IMMEDIATE RELEASE: Parents: Plan Now for Fall School Immunizations

The Allegany County Department of Health would like to remind parents of school and college-age children to plan ahead to get your children vaccinated before school starts this fall. "There are different vaccinations required based on a child's age. If you don't have a copy of your child's current vaccinations, you can check with your child's doctor's office or the school to get a copy and to find out what vaccinations are needed for this fall," said Brittney Schuld, Director of Patient Services for the Allegany County Department of Health.

"There are also more choices than ever to get the necessary vaccines, including flu shots. Along with your health care provider and the Health Department, most pharmacies are now offering flu and other vaccines. Pharmacies offer 5 to 7 days a week with evening hours, for customer convenience," she said. To assist with accessibility to vaccines, we polled our county and nearby county's pharmacies for vaccinations they provide, age ranges, and days and hours of operation that vaccines will be given. They are listed below:

Public Health
Prevent. Promote. Protect.

- Always call and check with your pharmacy to make sure they will bill your insurance for your vaccine.
- Always call and check with your pharmacy to make sure they have the vaccine you need available.
- Check with your pharmacy to see if a prescription from your health care provider is needed to get a vaccine.
- If you do not have insurance, check with your pharmacy for the cost of the vaccine.

*The age listed in the Flu column is the youngest age the pharmacy will vaccinate.

The Allegany County Department of Health offers vaccines at our Belmont Clinic in the County Office Building.
