News Release:

The Allegany County Department of Health is pleased to announce the distribution of town and zip code maps with corresponding tables. The data represented on the maps and in the tables are as of November 24, 2020, and will be updated periodically for the public. The maps and tables represent the positive COVID-19 cases in Allegany County and are for informational purposes only. Please note, the novel coronavirus depends on people not just data in a table or on a map. The novel coronavirus is community spread, and these numbers represent those who have tested positive. We know there are many individuals that may be asymptomatic in the communities we live in that may also have the virus or those who may have been ill but never were tested. We ask that if you are feeling ill, please stay home and out of the public, self-isolate, get tested, and help us stop the spread.
