Re: December **COVID-19 Clinics**
Date: November 29, 2021

News Release: December COVID-19 Clinics

The Allegany County Department of Health (ACDOH) is asking County residents to help us slow the spread of COVID-19 by getting vaccinated and encouraging your family, friends, and neighbors to get vaccinated.

Children and adults ages 5 and up should get a COVID-19 vaccine. Vaccination is the best way to protect children from COVID-19, and the Centers for Disease Control and Prevention (CDC) recommends that children and adolescents age 5 and older get a COVID-19 vaccine. The COVID-19 vaccine is safe and effective for children. More than 11 million adolescents ages 12-17 have already received the COVID-19 vaccine, and children ages 5-11 are also eligible to get vaccinated. Let's keep our children healthy and in school.

Everyone age 18 or older is eligible to receive a booster shot! Consider getting your booster shot if you have already completed your original series. To find a vaccine clinic go to www.alleganyco.com, call a local pharmacy, or call your health care provider. The Allegany County Department of Health is offering COVID-19 clinics in December. Please bring your insurance card and photo ID. You must register online for an appointment.
