

FREE WELL ASSESSMENTS

Seeking area residents interested in having an on-site review of their private wells. This service is grant funded by the USEPA but does not include water sampling. It is free and confidential. Many times, well owners are unaware of the possible causes of contamination in their wells. The assessment considers site conditions, land use practices, well construction and maintenance in determining if conditions exist which could impact your well water quality. You will be given a well owner's manual and site-specific recommendations to help keep your water safe from contamination.
