Department of Social Services 585-268-9622

Resources Available

- 2-1-1 HELPLINE provides comprehensive information and referral services for Allegany County, connecting callers to available services, programs and volunteer opportunities throughout the region. Dial 2-1-1 (or 800.346.2211)
- Caseworkers are available to assist anyone with unmet needs and are knowledgeable about services available in and around Allegany County. We are skilled at directing people to appropriate resources to assist with such issues as domestic violence, mental health, developmental disabilities, and landlord-tenant disputes, to name just a few.
- Temporary Assistance for Needy Families is a temporary measure. Eligibility is based on both the income and assets of the family. Most TANF recipients are required to participate in employment programs, with a goal of becoming financially self-sufficient. While they are working toward this goal, TANF provides cash assistance to help people pay their rent, utilities, and meet their other basic needs. TANF recipients are also required to participate in other Department programs that apply to them, such as child support enforcement or drug and alcohol screening.
- Emergency assistance can help families and single individuals to meet one-time emergency needs. Need and cost-effectiveness are determined on a case-by-case basis. In some cases, funds are loaned with an expectation of repayment; in other cases, funds are granted with no expectation of repayment.
